REMOTE INFRASTRUCTURE GROUP PTY LTD

Capability statement | November 2026 | Heath Jones, Principal

Pre-contracts and project management

Tendering and project management for regional civil contractors

The tender and project management department contractors don't have in house. We win government civil work for you, then run the job with you to the final claim.

WHO WE ACT FOR

Contractors, only

One contractor per package. RIG never tenders in its own name or against its clients. The contractor engages and pays RIG; suppliers and subcontractors are never charged.

ENTITY	ABN	BASED	WORKS
Remote Infrastructure Group Pty Ltd	**31 694 132 235**	**Gold Coast, Queensland**	**Regional Queensland and New South Wales**

What we do

WIN THE WORK

Find and qualify	Tender sweeps across council, state and federal portals, and a bid or no-bid call against your crew, plant and margin.
Price	First-principles estimates on your own rates and plant, with supplier and subcontractor pricing sourced for every scope.
Write and lodge	Methodology, program, management plans and returnables written to the evaluation criteria, then lodged.
Panels	Council and state panel applications and the documents that keep you on them at renewal.

DELIVER IT WITH YOU

Mobilise	Site-specific management plans, inspection and test plans and the possession pack ready before the first crew arrives.
Run the contract	Contract administration, Superintendent correspondence, variations and progress claims backed by records.
Close out	Quality records, Disaster Recovery Funding Arrangements acquittal evidence and final account.
Engineering	RIG provides project management and project engineering support. Professional engineering is done by engaged Registered Professional Engineers of Queensland.

RIG in 2026

50+	$150M+	$8M+	10	580+
Tenders prepared for regional contractors	Tendered value priced, our clients' prices excluding goods and services tax	Contracts won on RIG-prepared tenders, now in delivery	Contractor clients	Inspection and test plans, diaries and site records on live jobs

Off RIG's tender register and project records, January to October 2026. Tendered value is our clients' prices, not our fees. Client identities stay confidential.

The principal's record from prior roles

$133M+	Government roadwork managed, including a 6 kilometre section of the Coffs Harbour Bypass
$16.6M	North Burnett flood recovery, 8,497 damage sites on 344 roads
$40M	Floraville Road reconstruction, 31.7 kilometres rebuilt in six months
$30M	Gympie flood recovery Package 3, 431 roads, part of the program that won the 2025 Civil Contractors Federation Queensland Earth Award

Heath Jones's personal record as an employee of the contractors that delivered these projects. The projects, their outcomes and the award belong to those contractors and their clients, not to Remote Infrastructure Group.

Frameworks and standing

Written to the framework

Disaster Recovery Funding Arrangements and Queensland Reconstruction Authority requirements, Transport and Main Roads Technical Standards, and Australian Standard and New South Wales government contract forms.

Systems

Live jobs run on digital inspection and test plans, diaries and lot registers, so every claim line carries its record from day one.

Standing

Outstanding New Business 2026: Mid North Coast regional winner and Business NSW State Finalist. Insurances in place; certificates of currency on request.
